XiGo Nanotools Appoints Finance Manager

For Immediate Release

Bethlehem, PA, December 2010: XiGo Nanotools announces the appointment of Ms. Cara Meskill as its Finance Manager. Cara is responsible for the overall financial management of the company. She also oversees cash management and procurement functions, as well as managing XiGo's manufacturing subcontractors.

Cara brings extensive experience in all areas of finance, operations, and I.T. management. She specializes in working with start-up companies to maximize their resources and secure funding. Cara is a graduate of Western Michigan University and the University of Virginia. She also completed coursework at the Wharton Graduate School of Business.

According to Sean Race, XiGo President, "We are thrilled to add Cara's depth of management experience and expertise to the XiGo management team. This additional management capacity provides a firm base for our continued growth as we expand our product line and enter new markets."

About XiGo Nanotools

Founded in 2005, XiGo Nanotools provides innovative measurement products for the emerging nanomaterials industry. XiGo tools, like the Acorn Area™, are designed to easily and cost-effectively measure industrially relevant materials with little or no sample preparation. XiGo distributors can be found in the U.S., Europe, Asia, and parts of the Middle East. For more information about XiGo Nanotools, please visit xigonanotools.com.
