## XiGo Nanotools Appoints Tetra Sense Scientific Tools Ltd. as New Distributor for Israel

For Immediate Release

**Bethlehem, PA, January 2011:** XiGo Nanotools announces the appointment of Tetra Sense Scientific Tools Ltd. as its exclusive authorized representative for Israel, effective immediately.

According to Sean Race, Xigo president, "We are delighted to add Tetra Sense to the XiGo distribution team. Their knowledge in a wide range of industries will broaden XiGo's efforts to introduce its unique products to a growing market. These products include the XiGo **Acorn Area**™, a novel approach to precisely measuring nanoparticles in a convenient, cost-effective manner."

### About Xigo Nanotools

Founded in 2005, XiGo Nanotools provides innovative measurement products for the emerging nanomaterials industry. XiGo tools, like the Acorn Area™, are designed to easily and cost-effectively measure industrially relevant materials with little or no sample preparation. XiGo distributors can be found in the U.S., Europe, Asia, and parts of the Middle East. For more information about XiGo Nanotools, please visit [xigonanotools.com](http://xigonanotools.com).

### About Tetra Sense Scientific Tools Ltd.
